|                          |              |
|--------------------------|--------------|
| Malleable iron castings  | 529.6 tons   |
| Fittings, raw            | 2,087.3 tons |
| Fittings, processed      | 1,539.0 tons |
| Malleable cast iron pots | 790.0 tons   |
| Steel castings           | 3,554.0 tons |
| Forgings                 | 2,226.5 tons |
| Copper castings          | 64.5 tons    |
| Aluminum castings        | 5.6 tons     |

Production from January to April 1951:

|                          |             |
|--------------------------|-------------|
| Open hearth ingot steel  | 40,452 tons |
| Tire steel               | 9,074 tons  |
| Gray iron castings       | 646 tons    |
| Gray cast iron molds     | 8,389 tons  |
| Malleable iron castings  | 205 tons    |
| Fittings, raw            | 614 tons    |
| Fittings, processed      | 668 tons    |
| Malleable cast iron pots | 386 tons    |
| Steel castings           | 1,608 tons  |
| Forgings                 | 1,396 tons  |
| Copper castings          | 7.6 tons    |
| Aluminum castings        | 1.3 tons    |

THIS IS AN ENCLOSURE TO

1. Attached is a photostat of a list of the monthly production in 1950 of the iron and steelworks in Groeditz (N 52/E 92). Attached in Annex 2 is a photostat copy of a production report for January, February, March and April 1951 of the same firm.

25X1A

2. According to these documents, the Groeditz Iron and Steelworks produced the following amounts of iron and steel in 1950 and the first four months of 1951.

Total 1950 Production:

|                         |               |
|-------------------------|---------------|
| Open hearth ingot steel | 56,555.8 tons |
| Tire steel              | 18,322.5 tons |
| Gray iron castings      | 2,123.8 tons  |
| Gray cast iron molds    | 17,401.9 tons |
